

HEALTH & CHILDREN

Radio Talk on 14 November 2024 , CHILDRENS' DAY

Children's Day, celebrated nationwide on November 14, is also known as Bal Diwas. This day honours the birth anniversary of India's first Prime Minister, Pandit Jawaharlal Nehru, who was deeply loved by children and affectionately called *Chacha* Nehru.

As this special day was celebrated in different ways, on campus, the School of Media and Journalism organized a **radio talk** on a subject very pertinent to the day.

In a world where issues of climate change are on the rise and the pollution is taking a toll on the health of all living beings, **Radio Chitkara 107.8 FM** arranged to broadcast Excerpts from **Dr. Imran Patel's conversation with Rajiv Tikku**, from the world-famous United Nations Climate Change Conference or COP 29.
